

Letters

On behalf of the City of McFarland, Mayor Tom Dillingham and the City Council, I would like to offer this letter of appreciation and thanks for KRWA's providing assistance at the city's water plant in restructuring our town's water treatment plant and procedures used in chlorination and softening the city's water.

Assistance programs like this make it possible for small towns and communities with limited resources to stay current and offer safe water.

Sincerely,

*Larry Senne
McFarland City Clerk*

On behalf of the City of Morganville, KS I would like to thank you (Greg Metz) so much for your help with the locating and operating the water valves in our town. It is good to know that we can call on Kansas Rural Water and their staff when we need help.

Thank you.

*Dave Affolter
City Council Member*

On behalf of the city of Burr Oak, I would like to thank you (Greg Metz) for your assistance back in June and July to help us super-chlorinate our

well and get us back on track with our chlorine residual. Without your help in this matter I don't know what we would have done.

We are still searching for the right individual to work for the city who will be able to be trained on working with our water and sewer systems. It is difficult to find someone willing to take on the challenge of getting certified to take care of the systems.

Once again, thank you so much for coming to our rescue.

Sincerely,

*Walter Wilson, Mayor
City of Burr Oak*

Thanks so much (Charlie Schwindamann) for assisting us with the smoke testing of the city sewer. We really appreciate you and your crew for doing that.

It helps our city a lot to have something like that done.

Thank you so much.

City of Hepler

RWD No. 1, Pottawatomie County would like to thank (KRWA Source Water Tech) Doug Helmke for his help in leading us through the process of applying for additional water appropriations from two of our wells. His knowledge and relationship with

the Division of Water Resources saved us much money and time, which we would have otherwise spent.

Sincerely,

*David Stauffer
RWD 1, Pottawatomie County*

The Greenwood County Rural Water District 1 wants KRWA to know how much we appreciated the assistance that KRWA Tech Rita Clary provided to us with developing our risk assessment and response plan on January 14, 2015.

Rita made completing the plan an enjoyable experience with her knowledge and personality. She saved us many hours if we had tried to do this plan ourselves. Again we want to thank you for the assistance that KRWA and Rita have provided for our water district. We look forward to working with Rita in the future.

Thank you.

*John Bills, Supervisor
Greenwood County RWD 1*

I want to write this letter to let you know how much we appreciate the work of KRWA Tech Assistant Rita Clary. I am the City Clerk for the City of Easton, Kansas. I came on board to

KRWA is proud to present the impressive display, *Remembering Our Fallen* during the 2015 Conference. View the display in EXPO Hall, March 24 - 26, 2015, Century II Convention Center, Wichita.

serve as the City Clerk in October and Ms. Clary has gone above and beyond her call of duty to help our city.

Ms. Clary has assisted us in getting easements signed in an effort to start the process of getting a new water plant constructed. If Ms. Clary had not provided the assistance on this project that she did, I am not sure how our small community would have gotten the task completed.

I also want to thank Ms. Clary on a personal level. As I settled into my job as the new clerk, Ms. Clary was there to provide assistance and answer questions. She has been a wonderful support system to me and the staff.

I cannot thank Ms. Clary enough for all that she has done for us. I just wanted you to know how much we appreciate her support and look forward to working with her more in the future.

Thank you.

*Stephanie Harvie
Easton City Clerk*
