

FUN & PHILOSOPHY

Freedom isn't free. It shouldn't be a bragging point that "Oh, I don't get involved in politics," as if that makes someone cleaner. No, that makes you derelict of duty in a republic. Liars and panderers in government would have a much harder time of it if so many people didn't insist on their right to remain ignorant and blindly agreeable.

– *Bill Maher*

History is not everything, but it is a starting point. History is a clock that people use to tell their political and cultural time of day. It is a compass they use to find themselves on the map of human geography. It tells them where they are but, more importantly, what they must be.

– *John Henrik Clarke*

I have no desire to crow over anybody or to see anybody eating crow, figuratively or otherwise. We should all get together and make a country in which everybody can eat turkey whenever he pleases.

– *Harry S Truman*

People have said to me, "I hope you won't let happen in Washington what is happening in Kansas."

– *Dennis Moore*

The hottest place in Hell is reserved for those who remain neutral in times of great moral conflict.

– *Martin Luther King, Jr.*

Few will have the greatness to bend history itself; but each of us can work to change a small portion of events, and in the total; of all those acts will be written the history of this generation.

– *Robert Kennedy*

In the long term we can hope that religion will change the nature of man and reduce conflict. But history is not encouraging in this respect. The bloodiest wars in history have been religious wars.

– *Richard M. Nixon*

If one morning I walked on top of the water across the Potomac River, the headline that afternoon would read: "President Can't Swim."

– *Lyndon B. Johnson*

Posterity! You will never know how much it cost the present generation to preserve your freedom! I hope you will make a good use of it.

– *John Adams*

I am thankful the most important key in history was invented. It's not the key to your house, your car, your boat, your safety deposit box, your bike lock or your private community. It's the key to order, sanity, and peace of mind. The key is "Delete".

– *Elayne Boosler*

Throughout history, it has been the inaction of those who could have acted; the indifference of those who should have known better; the silence of the voice of justice when it mattered most; that has made it possible for evil to triumph.

– *Haile Selassie*

The water in a vessel is sparkling; the water in the sea is dark. The small truth has words which are clear; the great truth has great silence.

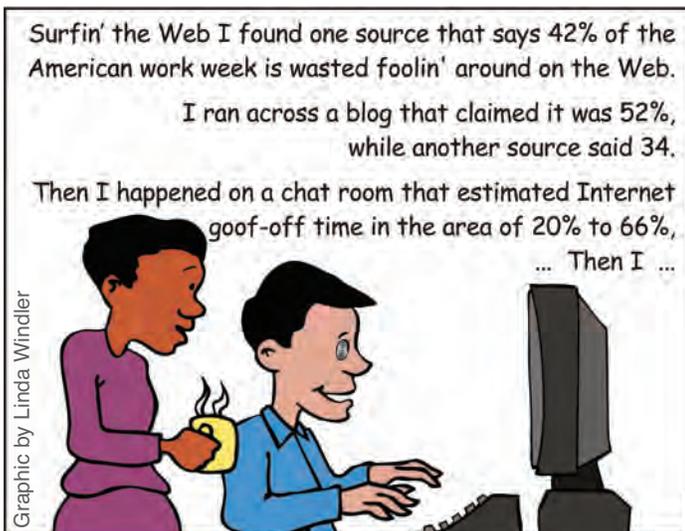

– *Rabindranath Tagore*

Water is life, and clean water means health.

– *Audrey Hepburn*

Let us not seek the Republican answer or the Democratic answer, but the right answer. Let us not seek to fix the blame for the past. Let us accept our own responsibility for the future.

– *John F. Kennedy*

Your CCTV Data...

on a whole new level.

The screenshot displays the ITpipes software interface with a navigation menu at the top: I.T. & Partners / Clients / ITpipes / Application / Services / Contact. The main heading reads "CONFIGURABLE SOLUTIONS". Below this, several overlapping windows show different views: a camera feed, a graph with a green circle and "22.1%" label, a settings panel, and data tables. At the bottom of the screenshot, text reads: "FLEXIBLE SETTINGS, REPORTS, AND MORE MAKE **ITPIPES** THE SOFTWARE OF CHOICE FOR MUNICIPAL AGENCIES, ENGINEERS, AND SERVICE CONTRACTORS!"

Infrastructure Technologies' ITpipes pipe inspection software provides a comprehensive toolkit for successful management of your underground inspections.

Whether you contract the work out or inspect in-house, ITpipes interfaces with all major camera manufacturers and integrates with the most popular software programs for managing public works.

Easy to use work space, customizable solutions to meet your specific needs and unequalled technical support make ITpipes the software of choice for municipalities and contractors.
